1. The following is an examiner's statement of reasons for allowance: the amendment filed 8/1/2006 has overcome the prior art of record. The prior art of record fails to teach or fairly suggest a combination of a single input for driving both the UOP and LOP, the plurality of MUXs are configured to generate output signals at UOP and LOP in response to only the input signal such that during an input signal transition at IN, a control electrode for the UOP and the LOP are driven towards opposite voltage supplies so that the UOP and the LOP are never on simultaneously as called for in claims 1 and 7, a combination of plurality of multiplexers having a common input node for receiving a single input signal for driving both the UOP and LOP, wherein the plurality of MUXs is configured to put the UOP and LOP simultaneously in a tri-state condition solely during the input signal transition as called for in claims 2, 10-11 and 13. therefore, claims 1-13 and 15-16 are presently allowed.

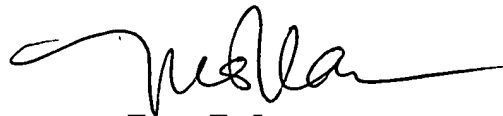

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan T. Lam whose telephone number is 571-272-1744. The examiner can normally be reached on Monday to Friday (7:30 am to 6:00pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, TIMOTHY P. CALLAHAN can be reached on 571-272-1740. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
